Re: 039-14268  
Second Administrative Amendment to  
Part 70 Permit No. 039-7201-00018

Dear Mr. Werwie:

Johnson Controls, Inc. was issued Part 70 Operating Permit T039-7201-00018 on January 20, 1999 to operate a stationary source that manufactures controls for heating, refrigeration, air conditioning and pump devices. First Minor Permit Modification and First Administrative Amendment to the Part 70 Operating Permit were respectively issued on May 21, 1999 and July 22, 1999. A letter requesting approval to install and operate a new soil vapor extraction system was received on April 12, 2001. Based on the information provided by Johnson Controls, Inc, potential uncontrolled volatile organic compounds (VOC); single hazardous air pollutant (HAP), as trichloroethene; and combined HAPs emitted from the soil vapor extraction system are determined as 0.9, 0.7 and 0.9 tons per year, respectively. The potential emissions from the proposed facility are below the exemption levels specified in 326 IAC 2-1.1-3 and, therefore, pursuant to 326 IAC 2-7-1(21), the proposed soil vapor extraction system is considered an insignificant activity.

Pursuant to the provisions of 326 IAC 2-7-11, the permit is hereby administratively amended to acknowledge the installation of a soil vapor extraction system. Since the facility is an insignificant activity pursuant to 326 IAC 2-7-1 (21), and it is not specifically regulated, no change will be made to Part 70 Operating Permit T039-7201-00018. All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit cover page to the front of the original permit.

Operation of the new equipment incorporated into the Part 70 operating permit by this amendment may commence operation upon issuance of this approval. This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Michael Hirtler at (973) 575-2555, extension 3229, or call (800) 451-6027, press 0 and ask for Duane Van Laningham or ask for extension 3-6878.

Sincerely,

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Management
